

# Hogback Hill GP Race!

## Friday, July 4, 2008

The track will be based on our TT / scrambles style track that Hogback Hill was recognized for in the 60's and 70's. Approximately half of our current motocross track will be mixed in with a grass track, ATV trails and TT / scrambles sections to provide a fun and safe event that should challenge all level riders. The team aspect of the event should provide a fun and unique feel and also help with the long race format. We hope everyone will enjoy the different sections of the track and will appreciate some other disciplines of the sport ( TT, hare scrambles, MX ).
